

# MJ SECTIONS LTD

PRECISION FORMED AND MACHINED COMPONENTS FOR AEROSPACE

## Statement regarding "Substances of Very High Concern" (SVHC's) as defined in the REACH regulations and Directive 1907/2006

If an article contains one or more Substances of Very High Concern (SVHC) as included in the Candidate List published on the ECHA website, [http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

ECHA **Must** be notified if **all** the following criteria are met:

1. The substance is present in the articles in quantities greater than 1 tonne per producer, or importer, per year
2. The substance is present in these articles in a concentration higher than 0.1% weight by weight
3. The producer, or importer, cannot exclude the exposure to humans, or the environment, under normal or reasonable foreseeable conditions of use throughout the life cycle, including disposal
4. The substance has not already been registered for that use.

**M.J Sections Ltd states that currently NO SVHC's or notifiable substances contained within worked products sold by the company.**

M.J Sections Ltd is aware of its duties under the REACH regulations to continually review SVHC Candidates and Substances list and to inform and communicate with those companies in the supply chain to enable access to the required substance information for the protection of workers and the environment. Please contact this office if any further information is required.

Regards

David Burke
